Despite thousands of published articles on FASD, limited research focuses specifically on adolescents and adults with FASD. As individuals diagnosed with FASD age, the “need to know” across a broad spectrum of areas continues to be critically important for identifying clinically relevant research questions and directions that will impact their day-to-day function and health outcomes.

Building on the work of eight previous conferences*, we aim to examine relevant global research, programs, and policies. What can we learn from practice-based evidence? What does existing or emerging research tell us? Are the results transferable from country to country and/or from laboratory and clinical studies to real life? Are there clinical implications of results from any of these areas of which we should be aware? What are the changes in our thinking, practice, and directions that will be required to improve outcomes? What are the implications for the future?

We hope you can join us at this interactive conference and be at the forefront of addressing these relevant global issues.

*This conference, previously held in Vancouver and hosted by University of British Columbia’s Interprofessional Continuing Education, has been moved to Seattle, the birthplace of the FASD diagnosis in North America. FASD United has taken on the task of putting on this unique global FASD conference in consultation with the International Adult Leadership Collaborative (ALC) of FASD Changemakers, a group of talented and dedicated individuals with FASD who are leaders in the community.
Register before/on February 14, 2024 to save up to $100 on registration. The tuition fee includes conference materials, refreshment breaks, and two lunches. We encourage you to register online (the most secure method) at the conference website. Please visit the website as well as cancellation/refund/transfer guidelines. If you need assistance in registering, please contact registration@fasdunited.org.

**SPECIAL RATES**

- Individual with FASD: $0
- *Parent Pre-conference (April 11): $100
- **Parent Main-conference (April 12-14): $400
- **Student Pre-conference (April 11): $100
- **Student Main conference (April 12-14): $400

All rates are quoted in USD.

*Available only for parents/guardians of individuals with FASD who do not work in the area of FASD.

**Available only for full-time students. A copy of valid student photo ID must be sent with your registration. Please email a copy to registration@fasdunited.org after registering to qualify for this rate.

If you are a speaker, sponsor, or exhibitor, please refer to registration rates provided.

As in years past, there will be an official adults and teens track at the 2024 conference. Designed, planned, and led by the International Adult Leadership Collaborative (ALC), FASD Changemakers, this track is free to teens and adults with FASD. Please visit [here](#) to view the teen & adult stream program.
CONFERENCE COMMITTEES

PROGRAM PLANNING COMMITTEE

Jan Lutke, Conference Chair, Vancouver, BC

Jo Votolato, Conference Director, FASD United, Washington, DC

Heather Carmichael Olson, Ph.D., Clinical Professor, Division of Child and Adolescent Psychiatry, Department of Psychiatry and Behavioral Sciences, University of Washington School of Medicine, Seattle, WA

Michael Charness, MD, Chief of Staff, VA Boston Healthcare System; Faculty Associate Dean, Professor of Neurology, Harvard Medical School; Associate Dean, Professor of Neurology, Boston University School of Medicine, West Roxbury, MA

Paul Connor, Ph.D., Clinical Neuropsychologist/Licensed Psychologist Private Practice, Des Moines, WA; Courtesy Clinical Assistant Professor, University of Washington, Psychiatry and Behavioral Sciences, Fetal Alcohol and Drug Unit, Seattle, WA

Carolyn Hartness, Fetal Alcohol Spectrum Disorders/Reentry Consultant/Trainer, Seattle, WA

Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA

Bill Dunty, Ph.D., FASD Research Coordinator and Program Director, Division of Metabolism and Health Effects, National Institute on Alcohol Abuse and Alcoholism, National Institutes of Health, Bethesda, MD

Brenda Knight, Registered Psychologist, Private Practice, Vancouver, BC

Christine Loock, MD, FRCPC, FAAP, Developmental and Social Pediatrician, Associate Professor, Department of Pediatrics, University of British Columbia, BC Children’s Hospital & Sunny Hill Health Centre for Children, Vancouver, BC

Rajesh Miranda, Ph.D., Professor, Department of Neuroscience and Experimental Therapeutics, College of Medicine, Texas A&M University Health Science Center, Bryan, TX

Christie Petrenko, Ph.D., Research Associate Professor, Mt. Hope Family Center, University of Rochester, New York, NY

Edward Riley, Ph.D., Distinguished Research Professor, Center for Behavioral Teratology, San Diego State University, San Diego, CA

Joanne Weinberg, Ph.D., Professor and Distinguished University Scholar, Emerita, Department of Cellular & Physiological Sciences, University of British Columbia, Vancouver, BC

LOCAL PLANNING COMMITTEE

Jan Lutke, Conference Chair, Vancouver, BC

Jo Votolato, Conference Director, FASD United, Washington, DC

Jennifer Wisdahl, Chief Operating Officer, FASD United, Washington, DC

Allison D. Brooks, Ph.D., Licensed Psychologist, University of Washington Fetal Alcohol Syndrome Diagnostic and Prevention Network; Clinic Director, Brooks Powers Group, Seattle, WA

Paul Connor, Ph.D., Clinical Neuropsychologist/Licensed Psychologist Private Practice, Des Moines, WA; Courtesy Clinical Assistant Professor, University of Washington, Psychiatry and Behavioral Sciences, Fetal Alcohol and Drug Unit, Seattle, WA

Carolyn Hartness, Fetal Alcohol Spectrum Disorders/Reentry Consultant/Trainer, Seattle, WA

Susan (Astley) Hemingway, Ph.D., Professor of Epidemiology and Pediatrics, Schools of Public Health and Medicine, University of Washington, Director WA State Fetal Alcohol Syndrome Diagnostic & Prevention Network, Seattle WA

Tracy Jirikowic, Ph.D., OTR/L, FAOTA, Professor | Department of Rehabilitation Medicine; Program Director, Division of Occupational Therapy; Co-Director, Program in Rehabilitation Science, UW Medicine, University of Washington, Seattle, WA

Kay Kelly, Project Director, FASD Legal Issues Resource Center; Research Coordinator, Multisite Study of Prenatal Alcohol Exposure: Effects of Inflammation and Endocrine Dysfunction in Adulthood, Brain Maturation in Adults with FASD, Addictions, Drug & Alcohol Institute (ADAI)/Fetal Alcohol and Drug Unit (FADU), University of Washington/ School of Medicine/Psychiatry, Seattle, WA

Michelle Kuhn, Ph.D., Assistant Professor of Psychiatry and Behavioral Sciences, University of Washington Medical School; Attending Psychologist, Seattle Children’s Hospital, Seattle, WA

Annette Kunzman, MBA, President, FASD Network of Southern California, member of FASDNow! Alliance Member, Manhattan Beach, CA

Natalie Novick Brown, Ph.D., Clinical Assistant Professor, University of Washington, Seattle, WA

Erin Olson, Ph.D., Clinical Associate Professor, Psychiatry & Behavioral Sciences, University of Washington School of Medicine; Psychologist, Fetal Alcohol Syndrome Diagnostic & Prevention Network, Institute on Human Development and Disability University of Washington; Attending Psychologist, Autism Center, Seattle Children’s Hospital, Seattle, WA

Joanne Sparrow, Ph.D., Licensed Clinical Psychologist in Private Practice (Redmond, WA) and Special Projects Coordinator – Families Moving Forward Program (Seattle Childrens Research Institute), Seattle, WA

Karen A Steele, Attorney, Salem, OR

Susan Stoner, Ph.D., Research Associate Professor, Ann Streissguth Ph.D. Professor of Fetal Alcohol Spectrum Disorders: Addictions, Drug & Alcohol Institute; Department of Psychiatry & Behavioral Sciences; University of Washington School of Medicine, Seattle, WA
CONFERENCE COMMITTEES

INTERNATIONAL ADVISORY COMMITTEE

Sabrina Agnihotri, Trainee Representative; MD/Ph.D., PGY-5, Department of Psychiatry, University of Toronto, Toronto, ON

Dorothy Badry, Ph.D., RSW, Professor, Faculty of Social Work, University of Calgary, Calgary, AB

Tatiana Balachova, Ph.D., Health Scientist Administrator/Program Director, Division of Epidemiology and Prevention Research (DEPR); Scientific Coordinator and Executive Secretary, Interagency Coordinating Committee on Fetal Alcohol Spectrum Disorders (ICCFASD), National Institute on Alcohol Abuse and Alcoholism, National Institutes of Health, Bethesda, MD

Claire Coles, Ph.D., Professor, Department of Psychiatry and Behavioral Sciences; Director, Maternal Substance Abuse and Child Development Program (MSACD), Emory University, Atlanta, GA

Paul Connor, Ph.D., Clinical Neuropsychologist/Licensed Psychologist Private Practice, Des Moines, WA; Courtesy Clinical Assistant Professor, University of Washington, Psychiatry and Behavioral Sciences, Fetal Alcohol and Drug Unit, Seattle, WA

Lori Vitale Cox, Ph.D., Director Elsipogtog Eastern Door Centre; Adjunct Professor UBC Faculty of Medicine, Department of Pediatrics, Rexton, NB

Julian Davies, MD, Clinical Professor of Pediatrics, University of Washington, Fetal Alcohol Syndrome Diagnostic and Prevention Network, Seattle, WA

Elizabeth Elliott, Professor, Discipline of Child and Adolescent Health, Faculty of Medicine and Health Science, University of Sydney; and Consultant Paediatrician, The Sydney Children's, Hospitals Network, Westmead, Australia

Carmen Enache, MD, Ph.D., Senior Consultant, Obstetrics and Gynecology, Emergency Clinical Hospital, Bucharest, Romania

Erikson Furtado, MD, Ph.D., University of Sao Paulo, School of Medicine of Ribeirao Preto, Department of Neurosciences and Behavior, Division of Psychiatry, Child & Adolescent Psychiatry and Mental Health, Alcohol & Drugs Program – PAI-PAD Ribeirão Preto, Brazil

Mary Kate Harvie, Judge, Provincial Court of Manitoba, Winnipeg, MB

Susan (Astley) Hemingway, Ph.D., Professor of Epidemiology and Pediatrics, Schools of Public Health and Medicine, University of Washington, Director WA State Fetal Alcohol Syndrome Diagnostic & Prevention Network, Seattle WA

Heike Hoff-Emden, Dr.med, Leader, FASD Centre, Central Germany/Leipzig Leipzig, Germany

Parker Holman, Senior Lab Demonstrator, Anatomy, Department of Kinesiology; Adjunct Professor, Department of Psychology, Brock University, St. Catharines, ON

Hon. Michael I. Jeffery, Utqiavik (Barrow), Alaska. Superior Court Judge (Ret.) Alaska Court System; Board member, Alaska Center for FASD, Barrow, AK

Kay Kelly, Project Director, FASD Legal Issues Resource Center; Research Coordinator, Multisite Study of Prenatal Alcohol Exposure: Effects of Inflammation and Endocrine Dysfunction in Adulthood, Brain Maturation in Adults with FASD, Addictions, Drug & Alcohol Institute (ADAI)/Fetal Alcohol and Drug Unit (FADU), University of Washington / School of Medicine/Psychiatry, Seattle, WA

Denis Lamblin, MD, Developmental Pediatrician, President SAF FRANCE; President and Delegate Director, Local & Regional Networks, International SAFTHON (FASTHON), Reunion Island, France

Philip May, Ph.D., Research Professor, Gillings School of Global Public Health, University of North Carolina at Chapel Hill-Nutrition Research Institute, Kannapolis, NC

Valerie McGinn, Ph.D., Clinical Neuropsychologist, Department of Population Health, University of Auckland, Auckland, New Zealand

Kathleen Mitchell, Senior Vice President of FASD Prevention and Recovery Services, FASD United, Washington, DC

Raja Mukherjee, MBE, MBBS, FRCPsych, PGDIP EPP, PhD, Consultant Psychiatrist, Clinical Lead Adult Neurodevelopmental Services, FASD Specialist Clinic and Adult Autism Diagnostic Services, SABP NHS Foundation Trust, Surrey, UK

Leana Olivier, Chief Executive Officer, Foundation for Alcohol Related Research (FARR), Cape Town, South Africa

Moira Plant, Professor Emeritus, Alcohol & Health Research Unit, University of the West of England, Bristol, UK; Adjunct Professor, Curtin University, Edinburgh, UK

Svetlana (Lana) Popova, Senior Scientist, Institute for Mental Health Policy Research, Centre for Addiction and Mental Health; Associate Professor, Epidemiology Division, Dalla Lana School of Public Health, University of Toronto; Associate Professor, Factor-Inwentash Faculty of Social Work, University of Toronto; Graduate Faculty Associate Member, Institute of Medical Science, University of Toronto, Toronto, ON

Jon Skrannes, Professor, Child Neurology and Rehabilitation, Department of Clinical and Molecular Medicine, Faculty of Medicine and Health Sciences, Norwegian University of Science and Technology (NTNU), Trondheim; Head of Child Habilitation Unit and Senior Consultant, Regional Competence Center for Children with Prenatal Alcohol/Drug Exposure, Dept. of Pediatrics, Sørlandet Hospital, Lillesand, Norway

Paula Stanghetta, Facilitator, Coach, Trainer, Paula Stanghetta & Associates Inc., Kitchener, ON

Byron Jones, ALC FASD Changemakers, New Zealand
Gina Schumaker, ALC FASD Changemakers, AK
Shannon Butt, ALC FASD Changemakers, Ottawa, ON
Justin Shepherd, ALC FASD Changemakers

Remember that no one is born a CHANGEMAKER. It is something you become when you see a problem, then dare to become part of the SOLUTION.

MELINDA GATES
Despite concerning FASD prevalence numbers, there is a persistent lack of understanding regarding how to effectively accommodate individuals with FASD when they have justice encounters. Recent strides in scientific research and collaborative efforts involving judges, lawyers, probation officers, social workers, researchers, and other professionals have challenged legal principles and fostered a growing recognition of the pressing ethical and moral imperatives to identify FASD and respond accordingly.

Please join us in this interactive session with justice and non-justice professionals to foster dialogue, share strategies and tools, and disseminate recent research into accessible information for use in courts and community. The lack of accommodation, for individuals with a recognized disability, raises social justice concerns as their access to justice (at all levels) is severely impacted which can lead to unjust outcomes including loss of personal freedom, loss of parental rights, and/or prolonged justice engagement. From sensory challenges to delayed processing, FASD can present myriad challenges to individuals. The over-representation of individuals with FASD in the criminal justice system as well as family and child welfare courts presents an important issue with the potential for intergenerational impacts.

To advance access to justice, this workshop will be organized around three key questions:

- How can the different judicial systems better respond with heightened awareness and effectiveness regarding all parties, including victims, defendants, and witnesses in the criminal court, and the children and families with FASD in the family court?
- How can justice professionals and those disciplines which intersect within the criminal justice system better share practice-based evidence to further our collective understanding of the complexities of FASD and appropriate accommodations to more effectively support individuals to stay in community?
- How can the family courts, child welfare, and intersecting systems better support parents with FASD who become involved in the child protection system, to successfully parent or be involved with the parenting of their children?

This one-day workshop will bring together leading justice, community and research voices to explore proven, promising and innovative practices for an interdisciplinary audience. We will share information across sectors to build overall capacity to support individuals with FASD inside and outside the courtroom.

After this insightful one-day session, participants will be able to:

- Explain the ways in which FASD can present particular challenges for individuals with FASD and justice professionals in different courtroom settings
- Describe barriers to justice as they present in criminal, family, and child welfare courtroom settings
- Demonstrate new language and understanding of how to implement proven practices to better support individuals with FASD in community and justice settings
- Describe the best practices showcased in this session and apply them in diverse court settings in your own communities

For the detailed schedule for this day, please see the next two pages.

Please note that there will be a follow-up breakout session scheduled in the main conference, A3 (Friday, April 12, 10:30 - 12:00) in which some of the presenters from this day will be available for a Q&A format type of session in which parents/caregivers of individuals with FASD can discuss how the courts function and how they can work effectively on behalf of their children and adult children who are involved with the courts.

Continuing Legal Credits
We have applied for continuing legal education (CLE) credits through University of Washington and are also looking into CLE credits from British Columbia. Please check our website for updates.
The Verdict Is in Your Court:
Advancing Justice for Individuals with FASD Across Judicial Systems

7:00 - 8:00  Registration
8:00 - 9:00  FASD 101 (optional*)
   *This session is an opportunity to refresh attendees' understanding of FASD or provide the basics of FASD to those new to the disability.

Julian Davies, MD, Clinical Professor of Pediatrics, University of Washington, Fetal Alcohol Syndrome Diagnostic and Prevention Network, Seattle, WA

9:00 - 9:30  Welcome & Blessing
Julian Davies, MD, Clinical Professor of Pediatrics, University of Washington, Fetal Alcohol Syndrome Diagnostic and Prevention Network, Seattle, WA
Kay Kelly, Project Director, FASD Legal Issues Resource Center; Research Coordinator, Multisite Study of Prenatal Alcohol Exposure: Effects of Inflammation and Endocrine Dysfunction in Adulthood, Brain Maturation in Adults with FASD, Addictions, Drug & Alcohol Institute (ADAI)/Fetal Alcohol and Drug Unit (FADU), University of Washington / School of Medicine/Psychiatry, Seattle, WA
Frances Gordon, JD, Former Crown Counsel/Prosecutor, British Columbia
Senator Manka Dhingra, WA., State Senate, Deputy Majority Leader, Chair of Behavioral Health Committee, King County
Carolyn Hartness, Fetal Alcohol Spectrum Disorders/Reentry Consultant/Trainer, Seattle, WA

PANEL #1:
FASD-Informed Innovations in Court Practices: Judges' Perspective

Moderators: Peter W. Choate, RCSW, Ph.D., Clinical Social Worker Professor, Social Work, Mount Royal University, Calgary, AB & Anthony P. (Tony) Wartnik, King County (Washington) Superior Court Judge (Retired) and Adjunct Professor, Human Services Department, Concordia University, St. Paul, MN
Hon. Michael Jeffery, Alaska Superior Court, Barrow (ret.)
Justice Todd LaRochelle, Alberta Court of Justice, Family and Youth Division, Calgary, AB
Justice Larry Anderson, Adult Criminal Division, Alberta Court of Justice

10:30 - 10:45  Refreshment break (coffee/tea provided)

10:45 - 11:45  PANEL #2:
FASD-Informed Policing

Moderator: Corey La Berge, Member of the Law Society of Manitoba, Community Living British Columbia, BC

FASD-Informed Approach to Justice
Patricia Yuzwenko, Legal and Strategic Policy Counsel, Office of the Representative for Children and Youth, British Columbia

An Innovative Approach to Justice
Chris Andrade, FASD Justice Program, Lethbridge Police Service, Lethbridge, AB
Sabrina Hacker, Program Coordinator, FASD Adults Justice Program, Lethbridge, AB

FASD-Informed Alternatives for Misdemeanor Offenders
Malika Lamont, Director, Law Enforcement Assisted Diversion (LEAD) Washington State Technical Support Team and VOCAL-WA, Seattle, WA
Brandie Flood, MSW, Director of Community Justice, Evergreen Treatment Services--REACH, Law Enforcement Assisted Diversion (LEAD), Seattle, WA

11:45 - 1:00  Lunch (delegates on their own)
Sub-meeting for judges: Greeting by State Representative Roger Goodman (invited)
The 

VERDICT IS IN YOUR COURT: 
ADVANCING JUSTICE FOR INDIVIDUALS WITH FASD ACROSS JUDICIAL SYSTEMS

PANEL #3: EFFECTIVE ACCESS TO JUSTICE AND REPRESENTATION FOR INDIVIDUALS WITH FASD AS DEFENDANTS, WITNESSES, AND VICTIMS

Moderator: Frances Gordon, JD, Former Crown Counsel/Prosecutor, British Columbia

Findings from the FASD Changemakers Lay of the Land Survey #2: Implications for Judicial Systems
Justin Shepherd, ALC FASD Changemakers

Red Flags
Natalie Novick Brown, Ph.D., Clinical Assistant Professor, University of Washington, Seattle, WA

Diagnostics, Provisional Assessments and Services in the Child Welfare System
Anthony P. (Tony) Wartnik, King County (Washington) Superior Court Judge (Retired) and Adjunct Professor, Human Services Department, Concordia University, St. Paul, MN

Social Cognition Deficits that Make Defendants with FASD Incompetent
Stephen Greenspan, Ph.D., Department of Educational Psychology, University of Connecticut, Storrs, CT

Accommodating Clients with FASD: A Canadian Lawyer’s Perspective
Corey La Berge, Member of the Law Society of Manitoba, Community Living British Columbia, BC

2:30 - 2:45 Refreshment Break

PANEL #4: INNOVATIONS AND CHALLENGES IN THE JUVENILE COURT

Moderator: Patricia Yuzwenko, Legal and Strategic Policy Counsel, Office of the Representative for Children and Youth, BC

FASD in the Juvenile Court - Screening, Diagnosis & Intervention - A Model Approach

Implementing an FASD Screening and Strengths and Strategies Approach in a Juvenile Probation Office
Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA

Interrogative Suggestibility and Frontal Lobe Paradox: Implications for the Juvenile Courts
David Junior Gilbert, Ph.D., School of Health and Society, Salford University, Manchester, United Kingdom

Innovative Juvenile Court Practices in San Diego
Hon. Marian Gaston, California Superior Court, San Diego

PANEL #5: LIFE COURSE SOLUTIONS–NOT EPISODIC APPROACHES–IN CHILD WELFARE AND FAMILY COURTS

Peter W. Choate, RCSW, Ph.D., Clinical Social Worker Professor, Social Work, Mount Royal University, Calgary, AB
Justice Todd LaRochelle, Alberta Court of Justice, Family and Youth Division, Calgary, AB
Christina Tortorelli, Assistant Professor, Social Work, Mount Royal University, Calgary, AB
Kim Spicer, MSW, RSW - Director, Investigations and Legal Representation for Children and Youth at Office of the Child and Youth Advocate, Edmonton, AB

5:15 - 5:30 Closing Remarks
Julian Davies, MD, Clinical Professor of Pediatrics, University of Washington, Fetal Alcohol Syndrome Diagnostic and Prevention Network, Seattle, WA
FASD was first clinically identified over 50 years ago, and international research continues to provide a very large, growing and diverse body of scientific evidence about the impact of prenatal alcohol exposure on the brain and body. Of particular importance, however, to teens and adults with FASD and those who live and work with them is the impact of alcohol on the area of memory. Memory is the critical building block or cornerstone of cognition, thinking, learning and the application of accumulated knowledge which has been retained – when it is required, where it is required, for whom it is required, how it is required, as it is required, and why it is required, on demand over time. The practical use of knowledge is always memory-based, and when memory is impaired, the ability to function effectively in real life in a fast-paced world is impaired. No one can function well in a vacuum of information. So, how is what science knows translated into use and how can this usage benefit teens and adults with FASD and their parents/caregivers?

Using the expertise of research clinicians, Adult Leadership Collaborative (ALC) members and the wisdom in the room, delegates will discuss how the science of memory, its assessment, test interpretation and use in everyday life can be better understood. Can it be better assessed in an ecologically valid manner and what are the implications for function going forward?

Learning Objectives
- Review the theory and science behind memory, specifically in relation to memory in adolescents and adults with FASD
- Consider how impaired memory relates to everyday activities in expected function in those with FASD
- Examine roles in understanding and supporting memory functioning
- Explore the concept of an “interautonomous approach” to effectively communicate about memory in different environments and systems
- Discuss the gap between formal memory assessment and real life demands
- Consider meaningful and realistic strategies and functional support by everyone involved, including parents and caregivers

Facilitator: Paula Stanghetta
Welcome Remarks: Jan Lutke
Opening & Closing Remarks: Nothing About Us Without Us...
Expert Speakers:
- Julie Kable, Ph.D., Associate Professor, Department of Psychiatry and Behavioral Sciences and Pediatrics, Emory University, Atlanta, GA
- Jacqueline Pei, Ph.D., BPhPsych, Professor, Department of Educational Psychology, Assistant Clinical Professor, Department of Pediatrics, University of Alberta, Edmonton, AB

The detailed schedule for this day, including break times, will be released soon. Please note that there is no lunch provided on this day.
8:00 - 8:30  Registration
8:30 - 9:10  Conference Welcome & Opening Remarks

& International Adult Leadership Collaborative (ALC), FASD Changemakers

Myles Himmelreich, International Adult Leadership Collaborative (ALC), FASD Changemakers, Victoria, BC
CJ Lutke, International Adult Leadership Collaborative (ALC), FASD Changemakers, Vancouver, BC
Katrina Griffin, International Adult Leadership Collaborative (ALC), FASD Changemakers, Vancouver, BC
Emily Hargrove, International Adult Leadership Collaborative (ALC), FASD Changemakers, Paducah, KY

Special Welcome (to be announced)
Remarks: Nothing About Us Without Us - Life as I Live It

9:10 - 10:00  MORNING PLENARY

RESULTS FROM FASD CHANGEMAKERS LAY OF THE LAND SURVEY #2: QUALITY OF LIFE—WHAT REALLY MATTERS? LIFE AS WE LIVE IT

Myles Himmelreich, International Adult Leadership Collaborative (ALC), FASD Changemakers, Victoria, BC
CJ Lutke, International Adult Leadership Collaborative (ALC), FASD Changemakers, Vancouver, BC
Katrina Griffin, International Adult Leadership Collaborative (ALC), FASD Changemakers, Vancouver, BC
Emily Hargrove, International Adult Leadership Collaborative (ALC), FASD Changemakers, Paducah, KY

- Discuss why this survey was developed
- Identify key findings from the survey
- Consider the implications of the survey results and areas requiring further research

10:00 - 10:30  Break: exhibits open and poster viewing

“Coming together is a BEGINNING. Keeping together is PROGRESS. Working together is SUCCESS.”
Henry Ford
**Main Conference**

**Friday, April**

**10:30 - 12:00**

**Breakout Session A**

Each session will have a 25% interactive component.

**A1**

4 oral papers (15 minutes & Q&A)

**A1a** Electroencephalographic Results in Children with FASD
Katarzyna Dyląg, MD, Physician, Faculty of Medicine, Jagiellonian University; St. Louis Children Hospital, Krakow, Poland

**A1b** Disruption of Circadian Clocks in Children with FASD
Dipak Sarkar, Ph.D., DPhil, Board of Governors Professor, Director, Endocrinology Program; Distinguished Professor, Department of Animal Science, The State University of New Jersey, Rutgers, New Brunswick, NJ

**A1c** Sex Differences in Cognitive and Behavioral Effects of Prenatal Alcohol Exposure in a Rat Model
Shameena Bake, Ph.D., Assistant Professor, Department of Neuroscience and Experimental Therapeutics, Texas A&M Health Science Center, Bryan, Texas

**A1d** Prenatal alcohol exposure impairs spatial learning in transgenic F344-AD in middle-aged rats
Nadia Samiya, MS, Graduate Student, Texas A&M University Health Science Center, Bryan, TX

**A2**

2 x 45-minute sessions & Q&A

**A2a** Diversity, Equity and Belonging: Inclusive Strengths-based Approaches to Address FASD in Urban Indigenous Communities
Emily Fisher, MD, MSc, FRCP, Clinical Assistant Professor, Division of Developmental Pediatrics, Department of Pediatrics, Faculty of Medicine, University of British Columbia, Vancouver, BC

Christine Lock, MD, Developmental & Social Pediatrician, Associate Professor, University of British Columbia; Responsive Intersectoral, Community Health, Education, and Research (RICHER) Initiative, Vancouver, BC

Kristina Pikksalu, BA, BScN, MScN, NP (F) (Primary Care), RICHER Social Pediatrics Program, BC Children’s & Women’s Health Centre

**A2b** Accessible Strategies for Training Pediatric and Adult Primary Care Providers in FASD Diagnosis and Care
Lynn L. Cole, DNP, Clinical Associate Professor, University of Rochester School of Nursing, University of Rochester, New York, NY

Christie Petrenko, Ph.D., Research Associate Professor, Mt. Hope Family Center, University of Rochester, New York, NY

- Discuss the strengths and challenges of the primary care landscape in care of adults with intellectual and developmental disabilities
- Discuss Project ECHO (Extension for Community Healthcare Outcomes), as a model of care to expand access to care for individuals with chronic complex conditions
- Discuss use of Project ECHO in training primary care providers about FASD and other developmental disabilities in pediatrics and opportunities in adult care

**A3**

90-minute session, only open to delegates who attended the pre-conference session #1 (page 8)

Follow-up to PC1: The Verdict in in Your Court: Advancing Justice for Individuals with FASD Across Judicial Systems

Peter W. Choate, RCSW, Ph.D., Clinical Social Worker Professor, Social Work, Mount Royal University, Calgary, AB

Judge Marian Gaston, San Diego Superior Court, San Diego, CA

Corey La Berge, Member of the Law Society of Manitoba, Community Living British Columbia, BC

For those who attended PC1, this breakout session will focus on issues specifically of interest to parents and/or caregivers of individuals with FASD as it relates to the judicial systems, or those interested in child welfare and family courts. Please only select this session if you attended PC1.

**A4**

90-minute session

Implementing an FASD Assessment and Strengths and Strategies Approach in a Substance Use Treatment Agency and a Behavioral Health Agency

Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA

Summer Krochta, LCSW, Vice President of Programs, Children’s Service Center, Wilkes-Barre, PA

- Describe a process of identifying individuals who likely have FASD
- Discuss a strengths and strategies approach for supporting these individuals
- Examine barriers to implementing screening and modifications in treatment settings
- Identify benefits of this screening and strengths & strategies approach

Angela Geddes, CYC, MSW, RSW, YTT, Researcher, Social Worker, Private Practice, Elgin County, ON

- Demonstrate the importance of working alongside individuals with FASD and their caregivers to develop and deliver supports tailored to their needs
- Collaborate and develop partnerships with community agencies, sharing expertise and resources, while building skills and capacity
- Identify the unique and key elements of support groups that are considered effective in addressing the wellbeing of individuals with FASD and their caregivers
- Practice and further discover the benefit of Acceptance Commitment Therapy/Training (ACT) for all: facilitators, group and individual participants

Interrogative Suggestibility, Confabulation and Compliance: Findings from an Experimental Study

David Junior Gilbert, Ph.D., School of Health and Society, Salford University, Manchester, United Kingdom

- Present the research on interrogative suggestibility in adolescents with FASD (compared to a control) as measured immediately and after one week
- Present findings on the unique patterns of confabulation observed in adolescents with FASD as measured immediately and after one week
- Expand on the types of responses of adolescents with FASD in comparison to controls during interrogative questioning with the implications of the findings

12:00 - 1:00 Lunch (provided), exhibits, and posters

Parent Lunch (provided): In past conferences, parents have appreciated the opportunity to come together at these events to connect with other parents who are raising a child, youth, or adult with FASD. For those parents who have children/adults living with FASD and are registered to attend the main conference, we are happy to announce that this lunch is arranged for you. If you are interested in attending, please sign up when registering for the conference. You will receive more information closer to the conference about this lunch.

1:00 - 2:30 Breakout Session B

Each session will have a 25% interactive component.

B1 4 oral papers (15 minutes & Q&A)

B1a Examination of Epigenetic Profiles Associated with Prenatal Exposure to Alcohol
Aileen Baldwin, Ph.D., MPH, Assistant Laboratory Director for Research, United States Drug Testing Laboratories, Des Plaines, IL

B1b Ultrasound imaging of ciliary arterial blood flow as a potential ocular biomarker for brain effects in adult offspring prenatally exposed to alcohol
Marisa Pinson, BS, Graduate Assistant Researcher, Neuroscience and Experimental Therapeutics, Texas A&M Health Science Center, Bryan, TX

B1c Metabolic and Cardiovascular Diseases in a Retrospective Cohort of Adults with FASD
Olivia Weeks, Postdoctoral Research Fellow, Division of Cardiology, Boston Children's Hospital, Harvard Medical School, and Brigham and Women's Hospital, Boston, MA

B1d Embryonic Alcohol Exposure in Zebrafish Predisposes Adults to Cardiomyopathy and Diastolic Dysfunction
Olivia Weeks, Postdoctoral Research Fellow, Division of Cardiology, Boston Children's Hospital, Harvard Medical School, and Brigham and Women's Hospital, Boston, MA

B2 4 oral papers (15 minutes & Q&A)

B2a Planning Healthy Outcomes with Caregivers of Individuals with FASD: Caregiver Perceptions and Beliefs
Vannessa Joly, BA, Graduate Research Assistant, Department of Educational Psychology, University of Alberta, Edmonton, AB

B2b Weaving Indigenous and Western Worldviews within the Assessment and Diagnosis of FASD

B2c Results from the Randomized Controlled Efficacy Trial of the Families Moving Forward Connect App for Caregivers Raising Children with FASD
Christie Petrenko, Ph.D., Research Associate Professor, Mt. Hope Family Center, University of Rochester, New York, NY

B2d Rural and Remote Programming: Changing Pathways for Youth Living with FASD
Wanda Beland, BEd, Executive Director, NWR FASD Society-Mackenzie Network, High Level, AB
B3 90-minute session

Systemic Advocacy: Creating Change through Community Connection and Co-creation

Samantha Cocker, Deputy Representative for Children and Youth of British Columbia, Victoria, BC
Myles Himmelreich, Co-researcher, BC Representative for Children and Youth, Victoria, BC; ALC FASD Changemakers, Victoria, BC
Jennifer Charlesworth, Representative for Children and Youth of British Columbia, Victoria, BC
Karen Bopp, Executive Advisor, Children and Youth with Support Needs, BC Representative for Children and Youth, Victoria, BC
Dawson Jones, Youth Research Participant, BC Representative for Children and Youth, Victoria, BC

- Hear from the lived experience of children and youth diagnosed with FASD and how those voices have informed the Representative for Children & Youth’s systemic advocacy work
- Identify the different tools to be used in systemic advocacy work and how community-based research uplifts these tools
- Identify barriers to systemic change
- Shift patterns in complex systems

B4 90-minute session

FASD as a Brain/Body Disorder: A Social Determinants of Health Perspective

Peter W. Choate, RCSW, Ph.D., Clinical Social Worker Professor, Social Work, Mount Royal University, Calgary AB
Dorothy Badry, Ph.D., RSW, Professor, Faculty of Social Work, University of Calgary, Calgary, AB
Christina Tortorelli, Assistant Professor, Social Work, Mount Royal University, Calgary, AB

- Use the proposed FASD Social Determinants framework for policy and clinical practice development
- Develop language and positions to engage colleagues in changing to strengths and capacity perspectives
- Integrate social determinants and human rights creating foundational advocacy positions that can be used in various forums intersecting with people with FASD
- Locate capacity building in case plans developed with clients

B5 90-minute session

FASD and Policy Implications Among Offenders in a Federal Psychiatric Facility

Mansfield Mela, MBBS, FWACP, FRC Psych, MSc, FRCPC, Professor and Forensic Psychiatrist, Department of Psychiatry, University of Saskatchewan, Saskatoon, SK

- Compare the rates of and contributing factors to FASD in correctional and non-correctional populations
- Recognize the importance of applying a similar research approach as the current study in other patient populations in order to improve public safety

B6 Open only to parents & caregivers 90-minute session

Parenting Children and Adults with FASD: Recognizing the Joys and Adjusting to What You Can and Cannot Change

Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA
Brenda Knight, Registered Psychologist, Private Practice, Vancouver, BC

- Identify positive aspects of raising your child
- Describe challenges of meeting the needs of the child or adult
- Increase your coping skills
- Recognize the need to reduce your isolation

2:30 - 3:00 Break, exhibits, and posters
EXPLORING HEALTH OUTCOMES IN ADULTS WITH FASD

Evidence from the Atlanta and Seattle Research Study Sites

CLAIRE D. COLES
Ph.D., Professor, Department of Psychiatry and Behavioral Sciences, Director, Maternal Substance Abuse and Child Development Program (HSACC), Emory University, Atlanta, GA
- Provide an overview of the impact of prenatal alcohol exposure on adult health and immune function
- Identify areas of risk and resilience
- Discuss the implications of the results for improving medical care and treatment options

Evidence from the Canadian Research Study Site

CHARLIS RAINEKI
Ph.D., Assistant Professor, Department of Psychology, Brock University, St. Catharines, ON
- Provide an overview of the impact of prenatal alcohol exposure on adult health and immune function
- Identify areas of risk and resilience
- Discuss the implications of the results for improving medical care and treatment options

The Potential for Severe Cerebrovascular Outcomes in Adulthood Due to Prenatal Alcohol

FARIDA SOHRABI
Ph.D., Distinguished Professor and Department Head, Director, Women’s Health in Neuroscience Program, Department of Neuroscience and Experimental Therapeutics, Texas A&M University, Bryan, TX
- Recognize that prenatal alcohol exposure (PAE) is a risk factor for adult cardiovascular diseases
- Recognize sex differences in stroke outcomes in PAE adults

Preliminary Results on the Study of the Cardiovascular Risk in Adults with a History of Prenatal Alcohol Exposure

JULIE KABLE
Ph.D., Associate Professor, Department of Psychiatry and Behavioral Sciences and Pediatrics, School of Medicine, Emory University, Atlanta, GA
- Identify relative risk for cardiovascular disease in adults with FASD
- Discuss the role that lifestyle and environmental factors play in mediating cardiovascular outcomes in adults with FASD
- Review the importance of early screening for cardiovascular disease and vascular functioning in individuals with FASD
A SYSTEMATIC AND PERSON-CENTERED HARMONIZING FRAMEWORK FOR HOUSING INDIVIDUALS WITH FASD: EXPERIENCES AND TRANSLATIONAL RESOURCES

- Apply a harmonizing housing framework and use accompanying translational resources to support individuals with FASD in meaningful ways. These actionable resources are intended to aid service providers, caregivers, and individuals with FASD by promoting understanding and facilitating meaningful goal attainment
- Recognize current housing provision practices, identify current successes, and demonstrate knowledge on how to adapt programming to better meet the needs of individuals with FASD

PROGRESS REPORT FROM THE INTERNATIONAL CONSENSUS COMMITTEE ON THE RESEARCH CLASSIFICATION OF FASD

- Understand the basic clinical elements that contribute to a diagnosis of FASD
- Identify the similarities and differences in the three principal diagnostic systems that are used most widely to diagnose FASD
- Recognize the challenges for the field in working with different diagnostic systems

8:00 - 8:30 Registration
8:30 - 8:40 Remarks: Nothing About Us Without Us - Housing: The Absence of Which is the Absence of Everything
8:40 - 9:40 MORNING PLENARY
9:40 - 10:00 REPORT
10:00 - 10:30 Break, exhibits, and posters
30 - 12:00 BREAKOUT SESSION C

Each session will have a 25% interactive component.

C1 4 oral papers (15 minutes & Q&A)

C1a Recommendations Towards Neuropsychological Assessment, Therapy and Post-Diagnostic Activities Based on Proposition of Polish Diagnostic Guidelines of FASD
Magdalena Borkowska, MSc, Researcher, The National Center for Prevention of Addictions (KCPU) Department of Prevention and Public Education, Warsaw, Poland

C1b Can Dysmorphology Examinations at Midlife Detect Physical Differences Between Adults With and Without Prenatal Alcohol Exposure?
Susan Stoner, Ph.D., Research Associate Professor, Ann Streissguth Ph.D. Professor of Fetal Alcohol Spectrum Disorders; Addictions, Drug & Alcohol Institute; Department of Psychiatry & Behavioral Sciences; University of Washington School of Medicine, Seattle, WA

C1c Caregiver perspectives on the stressors and successes of life transitions among adolescents and adults with FASD
Katherine Flannigan, Ph.D., RPsych, Research Associate, Canada FASD Research Network, Edmonton, AB
Dorothy Reid, MA, Parent/Family Member, Family Advisory Committee, CanFASD Research Network, Abbotsford, BC

C1d Healthcare Utilization and Characteristics of Individuals with FAS: A descriptive population-based cohort study in Ontario
Daniela Dozet, MPH, Research Analyst, Institute for Mental Health Policy Research, Centre For Addiction And Mental Health; Ph.D. Student, Institute of Medical Science, Faculty of Medicine, University of Toronto; Toronto, ON

C2 Open only to mental health clinicians 90-minute session

Integrating Knowledge, Experience and Approaches to Mental Health Treatment for Individuals and Families Living with FASD
Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA
Brenda Knight, Registered Psychologist, Private Practice, Vancouver, BC
- Examine underlying issues that contribute to mental health concerns
- Review issues related to the utilization of evidence-based practices in mental health treatment
- Reflect on your standards of practice
- Discuss the importance of professional self-care

C3 90-minute session

FASD and Justice
Andrea Kotlar, Executive Director, FASD Network of Saskatchewan, Saskatoon, SK
Shana Mohr, Training and Programs Manager, FASD Network of Saskatchewan, Saskatoon, SK
- See how harm reduction can work in the justice system
- Recognize trauma-informed care and the role FASD plays in criminal occurrences
- Discuss how to work with lawyers to create an FASD informed approach to representing their clients

C4 Film: 30-minute film with Q&A

(Film premiere) ‘8 Keys for Adults with FASD’: Seven adults with fetal alcohol spectrum disorders telling their stories, challenges, strengths, and strategies for success
Produced and Distributed by the Alaska Center for Fetal Alcohol Spectrum Disorders
Teri Tibbett, President, Alaska Center for FASD/ Coordinator, Alaska Prenatal Alcohol Partnership, Juneau, AK
Gina Schumaker, Vice-President, Alaska Center for FASD, Anchorage, AK
- Identify a broad range of impacts & challenges that are associated with prenatal alcohol exposure and FASD
- Describe a range of strategies that can be helpful to those who experience an FASD
- Explore their own reaction to the stories shared by the adults in the film, from the panel, and questions from audience members
Holistic Support for Adolescents with FASD: From Disability Processing to Relationship-Building to Adaptive Living Skills

Janis Yue, OTD, OTR/L, Assistant Professor of Clinical Occupational Therapy, University of Southern California, Los Angeles, CA
Stephani Gharehptian, OTD, OTR/L, Assistant Professor of Clinical Occupational Therapy, University of Southern California, Los Angeles, CA

Jessica Frausto, OTR/L, Occupational Therapy Doctoral Resident, University of Southern California, Los Angeles, CA
Emily Rourke, OTD, OTR/L, Occupational Therapist, Denver, CO

• Identify challenges with self-efficacy that adolescents with FASD often experience
• Describe how challenges with self-efficacy can result in poor outcomes for adolescents with FASD
• Apply sensory and arts-based strategies to support self-efficacy for adolescents with FASD

12:00 - 1:30 Lunch (on your own), exhibits, and posters

(Optional Lunch Session: 12:45 - 1:30) Determine Best Practices for Implementation and Outcomes for a Worldwide Telehealth Hub and Spoke Model for Neurodevelopmental/FASD Diagnosis and Care

Join Col(r) Eric Flake M.D., project lead for this endeavor, and other key project partners in an open forum discussion and information gathering session. No pre-registration is required

For more information about this session, please click here.

1:30 - 3:00 BREAKOUT SESSION D

D1 4 oral papers (15 minutes & Q&A)

D1a A Thematic Analysis of Strengths and Protective Factors in Youth with FASD and Criminal Legal System Involvement
Chantel Ritter, MSc, Ph.D. Student, Clinical Child and Adolescent Psychology, University of Guelph, Guelph, ON

D1b FASD in Canadian Criminal Cases: A Case Law Review
Kaitlyn McLachlan, MA, Ph.D., Assistant Professor, Department of Psychology, University of Guelph, Guelph, ON

D1c Nothing About Us Without Us: Research Participants Speak Back and Outline What is Needed for Ethical Collaborations
Dorothy Reid, MA, Parent/Family Member, Family Advisory Committee, CanFASD Research Network, Abbotsford, BC

D1d Unpacking the narrative of the child and family experience: When FASD and Child welfare Intersect
Christina Tortorelli, Assistant Professor, Social Work, Mount Royal University, Calgary, AB

D2 90-minute session

Implementing a Screening Assessment, and Intervention Protocol to Identify Youth with FASD Within Michigan’s Department of Health and Human Services

Katherine Fitzpatrick, MA, Coordinator, SED and Neurodevelopmental Disorders, Michigan Department of Health and Human Services, Lansing, MI
Dan Dubovsky, MSW, FASD Specialist, Independent Contractor, Philadelphia, PA

• Describe the screening, assessment, and implementation process to identify youth with FASD
• Discuss the importance of utilizing a strengths assessment for youth and their family members
• Identify barriers to implementing the protocol
A Community Initiative to Increase Well-being and Reduce Recidivism in Youth Offenders with FASD

Sam Galloway, Practice Manager, START Taranaki, Kaponga, Taranaki, New Zealand
Her Honour Judge Lynne Harrison, RGON, LLB, District Court Judge, Taranaki District Court, New Plymouth, New Zealand
Valerie McGinn, Ph.D., Clinical Neuropsychologist, Department of Population Health, University of Auckland, Auckland, New Zealand

- Identify what leads to increased well-being and better outcomes for recidivist youth offenders with FASD
- Apply this type of community initiative in your own community to build productive crime free lives and achieve success for youth with FASD

FASD Across the Lifespan Research Including a Report on Adolescent Deaths and Serious Injuries with Prenatal Substance Exposure/FASD in Child Advocate Reports in Canada: A Systematic Review

Dorothy Badry, Ph.D., RSW, Educator, Faculty Of Social Work, University of Calgary, Calgary, AB

- Review current research evidence and literature on the state of practice issues for adolescents with FASD
- Consider the issues of child deaths and serious injuries as reported by child advocates across Canada, contributing to a recognition of the serious need for FASD informed practice in child protection

My Health Coach: A community-engaged partnership to develop a scalable mobile health tool for adults to aid with FASD self-management

Christie Petrenko, Ph.D., Research Associate Professor, Mt. Hope Family Center, University of Rochester, New York, NY
Christiano Tapparello, Research Associate Professor, Department of Electrical and Computer Engineering, University of Rochester, New York, NY
Emily Speybroeck, Graduate Student, Clinical Psychology, University of Rochester, New York, NY
Myles Himmelreich, CJ Lutke, Anique Lutke, Katrina Griffin, Maggie May, and Emily Hargrove

- Describe the user-centered design approach used in initial development and evaluation of the My Health Coach app for adults with FASD
- Describe feasibility trial results including user acceptability, recommendations for future refinements, and lessons learned

New Directions for FASD: Perspectives from Australia, USA, and Canada

Elizabeth Elliott, AM, MD, MPhil, MBBS, FRACP, FRCPCH, FRCP, Child and Adolescent Health, Sydney Medical School, University of Sydney; and The Sydney Children's, Hospitals Network, Westmead, Sydney, Australia
Claire Coles, Ph.D., Professor, Department of Psychiatry and Behavioral Sciences; Director, Maternal Substance Abuse and Child Development Program (MSACD), Emory University, Atlanta, GA
Christine Loock, MD, FRCPC, FAAP, Developmental and Social Pediatrician, Associate Professor, Department of Pediatrics, University of British Columbia, BC Children’s Hospital & Sunny Hill Health Centre for Children, Vancouver, BC

The session will include information about FASD from national databases, on adult outcomes, on FASD in racialized and other equity seeking populations, on the challenges we encounter in addressing FASD, and on innovations developed to facilitate the diagnosis of FASD and support for individuals and their families.

- Overall objective: To provide updated information on prevalence, contexts, and current state of play regarding FASD in Australia, Canada and USA, the challenges we face in each country, and solutions that have been developed to address these challenges.
3:30 - 3:40 Remarks: Nothing About Us Without Us - Life with FASD in the Rest of the World – Don’t Forget About Us

3:40 - 4:40 AFTERNOON PLENARY

LIFE EXPERIENCE OF INDIVIDUALS WITH FASD IN A RURAL SOUTH AFRICAN CONTEXT

LEANA OLIVIER
Ph.D., Chief Executive Officer, Foundation for Alcohol Related Research (FARR), Cape Town, South Africa

- Review results from follow-up on a cohort of South African individuals diagnosed with FASD and matched controls 16 years after diagnosis
- Reflect on professionals’ perceptions about the life outcomes of people living with FASD in developed versus developing countries
- Consider the implication of the difference in perceived independence between individuals with FASD and that reported by their parents/caregivers

4:40 - 5:10 AFTERNOON PLENARY

THE LASTING LEGACY OF DR. ANN STREISSGUTH: WIDE-RANGING WORK ON FASD

SUSAN STONER
Ph.D., Research Associate Professor, Ann Streissguth Ph.D. Professor of Fetal Alcohol Spectrum Disorders, Addictions, Drug & Alcohol Institute; Department of Psychiatry & Behavioral Sciences; University of Washington School of Medicine, Seattle, WA

- Provide an overview of studies of FASD by Dr. Streissguth from 1974-2004
- Recognize the significance of Dr. Streissguth’s work
- Describe emergent findings from longitudinal studies with the Streissguth research cohort

5:10 Adjourn
8:00 - 8:30  
Registration

8:30 - 8:40  
Remarks: Nothing About Us Without Us - Epigenetics in FASD: What We Want to Know; What We Need to Know

8:40 - 9:40  
**THE CHANGING WORLD OF EPIGENETICS:** EXPERIENCE IS WRITTEN IN OUR GENES, BUT DOES IT HAVE TO STAY THERE?

**Epigenetic Signatures of Developmental Adversity:** Implications for Risk and Resilience in FASD  
**Facilitator:**  
**ALEXANDRE LUSSIER**  
Ph.D., Instructor in Psychology, Harvard Medical School; Massachusetts General Hospital, Boston, MA

- Discuss the epigenetic mechanisms that might underlie the effects of early life adversity during sensitive periods
- Compare and contrast findings from animal models and human epigenetic studies of prenatal alcohol exposure and FASD
- Assess evidence of epigenetics as a mechanism for risk and resilience for physical and mental health outcomes

**Early Life Experience and Developmental Vulnerability:** Adversity, Outcomes, and Intervention  
**Facilitator:**  
**JAMES REYNOLDS**  
Ph.D., Chief Scientific Officer, Kids Brain Health Network; Professor, Department of Biomedical and Molecular Sciences, Queen’s University, Kingston, ON

- Describe the impact of early life adversity on brain development and long-term health outcomes
- Recommend tools for assessing child development and developmental support planning to improve long-term outcomes

9:40 - 10:10  
Break, exhibits, posters

10:10 - 11:40  
**BREAKOUT SESSION E**

**E1**  
90-minute session

Essential Lessons from Medical Assessments at one of the two British Columbia Adult FASD Diagnostic Clinics: What I Needed to Learn to Understand Symptoms and Improve Patient Outcomes  
**Roderick Densmore**, MD, Physician, Adult FASD Diagnostic Clinic, Independent Living Vernon, Vernon, BC

- Identify questions that screen for common—but often undiagnosed—FASD-related sensory "invisible disabilities"
- One example: safety in traffic is at risk if the patient has difficulties predicting where a moving object (such as a car) will be in a few seconds time; this issue is often not recognized.
- Effectively advocate for patients when imminent risk of suicide seems to be underestimated by other professionals
- Review a series of 20 templates that describe our clinic’s approaches to common clinical issues that affect youth and adults with FASD
- Identify additional strategies and tools that can save time and increase accuracy of assessments

**E2**  
90-minute session

Capacity to Stand Trial issues and Ensuring Effective Participation for Defendants with FASD: an International Perspective  
**Valerie McGinn**, Ph.D., Clinical Neuropsychologist, Department of Population Health, University of Auckland, Auckland, New Zealand  
**Mansfield Mela**, MBBS, FWACP, FRC Psych, MSc, FRCP, Professor and Forensic Psychiatrist, Department of Psychiatry, University of Saskatchewan, Saskatoon, SK  
**Maria Pecotić**, Judge, District Court, New Zealand  
**Stephen Greenspan**, Ph.D., Department of Educational Psychology, University of Connecticut, Storrs, CT  
**David Junior Gilbert**, Ph.D., School of Health and Society, Salford University, Manchester, United Kingdom

- Identify factors that impact on capacity to stand trial in defendants with FASD
- Consider how to respond to these identified factors at all stages of the legal process to ensure a fair process
**The SAFTHON, an International Movement**

*Denis Lamblin,* MD, Developmental Pediatrician, President SAF FRANCE; President and Delegate Director, Local & Regional Networks, International SAFTHON (FASTHON); National & International Relations, FASD Resource Center, Père Favron Foundation, Reunion Island, France  
*Sarah Lamblin,* MA, Communication Consultant, SAF FRANCE; SAFTHON, Paris, France

- Recognize the importance of a global advocacy strategy for a better recognition of FASD by public health actors, institutions and systems in their own countries  
- Exemplify or consider SAFTHON as a cost effective strategy and communication support that builds on the combined commitment of many countries in the prevention of FASD  
- Initiate a SAFTHON awareness campaign in your own country to influence stakeholders utilizing tools and strategies provided by SAF France professionals

**Using Community Outreach and Organizational Partnerships to Make Change for Those Living with FASD: FASDNow!, a California Alliance**

*Annette Kunzman,* MBA, President, FASD Network of Southern California, member of FASDNow! Alliance Member, Manhattan Beach, CA  
*Shannon Lacobacci,* MS Psychology, Embracing The Brain Founder, Certified Facilitator FASCETS Neurobehavioral Model, FASCETS board chair, FASDNow Alliance Member, Master IEP Coach®, FASD Collaborative Project Member, Manhattan Beach, CA

- Identify 2-4 ways that (a) children and adults with FASD as potential consumers of services of care systems, and (b) caregivers and (c) service providers can influence and drive the delivery of these services by working together  
- Identify 4-6 strategies for connecting with an audience that wants or needs to become more knowledgeable about FASD and can apply that knowledge to their family, agency, or professional setting  
- Discuss three practical challenges to implementing the strategies available as identified in the first two objectives  
- Specify 3-5 action items for developing an effective grassroots effort in your environment

**Closing the FASD Health Service Gap in the Eastern Doorway—Taking Action on Canada’s Truth and Reconciliation Commission (TRC)’s Calls to Action—Participant Action Research in Wabanaki**

*Lori Vitale Cox,* Ph.D., Director Elsipogtog Eastern Door Centre; Adjunct Professor UBC Faculty of Medicine, Department of Pediatrics, Elsipogtog FN, NB Canada

- Discuss FASD in relation to generational trauma and the colonial process  
- Discuss Two Eyed Seeing approach to FASD service delivery and the Eastern Door Centre model and its challenges and successes  
- Discuss the findings of Indigenous Community Based Participant Action Research regarding FASD health service delivery in the Eastern Doorway (Atlantic Canada)  
- Engage session participants in a discussion regarding both successes and gaps in delivering culturally safe FASD services in other communities and regions of Turtle Island

**The FASD United Family Navigator: Support and Resources for the FASD Community**

*Jennifer Wisdahl,* Chief Operating Officer, FASD United, Washington, DC  
*Laura Bousquet,* Family Navigator, FASD United, Washington, DC  
*Elizabeth Dang,* MPH, Behavioral Scientist, National Center on Birth Defects and Developmental Disabilities, Centers for Disease Control and Prevention, Atlanta, GA

- Describe the navigator support, services, and referrals available to individuals living with FASD and their caregivers  
- Recognize through the experiences of users how the navigator can help improve outcomes and opportunities for adolescents and adults with FASD  
- Overcome reluctance to identify with FASD and be self-confident in communicating with professionals about FASD and your needs  
- Describe resources available from the Centers for Disease Control and Prevention (CDC) and its partners to help prevent alcohol use during pregnancy and provide care for individuals with FASD and their families across the lifespan

11:40 - 12:40  
Lunch (provided), exhibits, and posters
CLOSING PLENARY

FETAL ALCOHOL SPECTRUM DISORDERS: A RIGHTS PERSPECTIVE VERSUS BEST INTEREST

Facilitator:

MOIRA PLANT
Professor Emeritus Alcohol & Health Research Unit, University of the West of England, Bristol, UK; Adjunct Professor, Curtin University, Edinburgh, UK

Integrate an understanding of human rights as having a higher importance in the lives of people with FASD as opposed to best interest
Assess and utilize human rights in program development, case planning and service delivery
Acquire knowledge for the application of human rights advocacy

PETER W. CHOATE
RCSW, Ph.D., Clinical Social Worker Professor, Social Work, Mount Royal University, Calgary AB

TERRI PELTON
BSW, RSW, Child and Youth Advocate (Alberta), Edmonton, AB

MAIN CONFERENCE SUNDAY, APRIL

JESSICA BIRCH
International Adult Leadership Collaborative (ALC), FASD Changemaker, Australia

12:50 - 1:50 Fetal Alcohol Spectrum Disorders: A Rights Perspective versus Best Interest

1:50 - 3:30 STARFISH AWARD PRESENTATIONS & CLOSING CEREMONY: WE ARE THE FUTURE

STARFISH - every life form seems to reach out to its own kind in order to, not just survive, but to flourish.

LINDA MAXWELL

3:30 Adjourn. Have a safe journey home!
